

HUMAN CAPITAL MANAGEMENT

WHO WE ARE:

VTR Learning is an Oklahoma-born business. We have been providing university-level courses in partnership with colleges such as OBU for over a decade. We have taken that course curriculum and shortened the classroom approach to fit the needs of small business owners.

VTR EMPLOYEE TRAINING PROGRAM

Most of us can identify a loyal, trustworthy employee that we could promote if they just had some additional skills. VTR Learning can provide online, on-demand training for new hires or upskilling valued employees while you, the business owner, continue to conduct your daily tasks. And if downsizing is piling hats on your head-we can help there too.

HUMAN CAPITAL MANAGEMENT

Intern with Central Products' HR Manager, Anne Chavez, as you explore each facet of what it takes to work in the field of Human Resources. A wonderful review of the fundamentals or an overview for first-time learners, this course covers everything from legal issues and behavioral ethics to motivating employees through leadership and team-building.

You will familiarize yourself with the hiring process, from pre-employment through retirement or termination, and assist Ms. Chavez as she navigates through everyday HR issues like globalization, unions, and OSHA regulations.

Bonus: This course is accredited with CPA/NASBA
